

Head, Inorganic/Biological Division, Department of Chemistry - 2006-2008  
Departmental Merit Review Committee - 2007  
Organized Stauffer Lecture and Symposium (R. Lerner) - 2006-2007  
University Marshall - 2007  
Chair, Department of Chemistry - 2008-2011  
University Committee on Academic Review (for MCB, Dept. of Biological Sciences) - 2010  
Selection Committee, Stevens Institute - 2010; 2012  
Dornsife College Dean Selection Committee - 2011-2012  
Dornsife College Vice Dean for Natural Sciences - 2012-2017  
Director, USC Core Center of Excellence for Drug Discovery - 2017-  
Promotion Committee, Department of Chemistry, 2018-2019  
Fifth Year Review Committee, Department of Biological Sciences, 2019

## **Publications**

1. Hanstein WG, Lett JB, McKenna CE and Traylor TG. Heme protein-diimide complex- es: possible intermediates in biological nitrogen fixation. *Proc Natl Acad Sci U S A.* 1967;58(4):1314-1316.
2. Brieger G, Nestruck TJ and McKenna CE. The Synthesis of trans, trans- $\beta$ -Farnesene. *J Org Chem.* 1969;34(12):3789-3791.
3. McKenna CE, Benemann JR and Traylor TG. A Vanadium Containing Nitrogenase Preparation: Implications for the Role of Molybdenum in Nitrogen Fixation. *Biochem Biophys Res Commun.* 1970;41:1501-1508.
4. McKenna CE, Benemann JR, Ripley LR and Traylor TG. Vanadium Nitrogenase and Role of Molybdenum in Biological Nitrogen Fixation. *Federation Proceedings.* 1971;30(3):1291-&. PubMed PMID: WOS:A1971J335701441.
5. McKenna CE and Traylor TG. Direct observation of diazene intermediates in borohydride reduction of diazonium salts. New route to aryldiazenes. *J Am Chem Soc.* 1971;93(9):2313-2314.
6. Benemann JR, Kamen MD, Traylor TG, Lie RF and McKenna CE. Vanadium Effect in Nitrogen Fixation by *Azotobacter*. *Biochim Biophys Acta.* 1972;264(1):25.
